

CURTAIN WALL STRIKER

01267

Functions

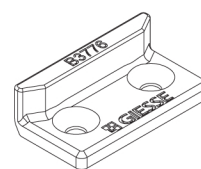

Fixed striker specially created for use in conjunction with a Giesse adjustable fastening pawl.

Finish

Base finish

Packaging

Box of 100 pieces

Tecnical Features

Specific for frames without groove, generally used in outward opening or curtain-wall profile series.

Fixing by means of supplied self-threading screws.

The frame must be pre-drilled before fixing.

The striker is designed for use in conjunction with an adjustable pawl. If necessary, raise the striker using the supplied spacers.

Parts

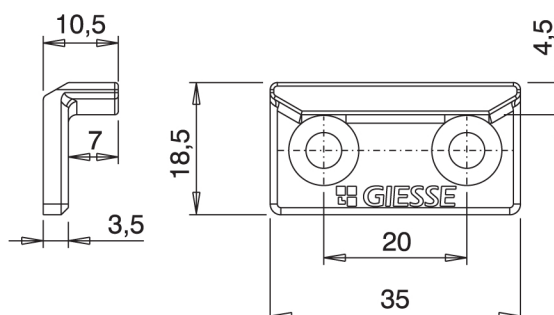

Instructions sheet
